**Display Monitors**  
**LCD PCs**  
**Industrial PC Chassis**  
**Passive Backplanes**  
**AAEON Technology Inc., (Taiwan Headquarters)**  
**AAEON Electronics Inc., (USA)**  
**AAEON Computer Technology, (China)**  
**AAEON Europe, (Germany)**

AAEON Technology, established in 1992, manufactures and markets a wide range of OEM/ODM single board computers all over the world. Our commitment to our customers is to provide reliable and high quality Embedded SBCs, Industrial Slot PCs, PC/104 modules, Panel PCs and related accessories.

In the beginning of 1994, AAEON implemented a Research and Design strategy to attain ISO-9001 certification the same year. Our product and services since then expanded to producing our own in-house designed products in addition to manufacturing OEM/ODM products.

In 1999, AAEON Technology Inc. became the first Embedded PC Company to be listed on the Over The Counter Stock Exchange. In the year 2000, AAEON acquired Astech Inc., a leading Panel PC manufacturer in Taiwan. Through this merger, we have strengthened our core competencies and broadened our product lines to include Industrial Workstations, Panel PCs, Display Monitors and LCD PCs.

Over the years, AAEON has upheld quality control to the highest standards. As an ISO-9001 certified manufacturer, we emphasize the quality of our products by ensuring standards that are met throughout the design and manufacturing process. As an ISO-14001 manufacturer, we make efforts to contribute to the preservation of the environment around us. Other accomplishments that AAEON has also achieved over the years consist of being awarded the Eighth National Award for Small & Medium Scaled Enterprise, the Symbol of Excellence Award, and the Innovation Research Award.

Our mission in this competitive global market is to provide information, services and quality engineering products to our customers. Through teamwork, innovation and commitment, AAEON will continue to progress and keep pace with the rapidly changing industry.
