

# Reliable Automation & Infotainment Panel PCs

*Discover the Most Innovative Panel PC Platforms*

# AAEON Panel PCs & Displays

## Ideal for Industrial & Infotainment

AAEON offers a series of automation and infotainment panel PCs aimed at vertical market applications. They are well-suited to be used on heavy-duty machines, factory automation, environmental monitoring, transportation, check-in POI, retail shops, to name a few.

### Infotainment

#### Shopping Malls

#### Hotel Check-in System

#### Convenience Stores

#### Meeting Rooms

# Innovative Panel PC Product Line

AAEON offers a series of Panel PCs to fit numerous applications. For industrial automation and infotainment markets, each product line is designed with unique features that meet application-specific requirements, such as wide temperature HMI, dustproof and waterproof IP67 design, multi-touch, anti-scratch and remote display.

## Industrial Automation Touch Panel PCs

### Cost Effective HMI Panel PCs (AHP-1000 Series)

- Intel® Atom™ Series
- Fanless design and low power consumption CPU
- Multiple panel sizes from 7" ~ 15"
- IP65 certified plastic front bezel
- Compatible with thin client and SCADA software

### Rugged Stainless Steel Panel PCs (AFP-6000 Series)

- Intel® Atom™ Series
- Stainless Steel Type 316L enclosure
- NEMA4x/IP66 rated
- Anti-scratch resistive T/S
- Wide temperature design: -20°C ~ 50°C

### Rugged and Wide Temperature Panel PCs (AHP-2000 Series)

- Intel® Atom™ Series
- Wide temperature design: -20°C ~ 60°C
- Wide range power input: 9V ~ 30V DC
- IP65 aluminum die cast front bezel
- Easy access front USB port

### Rugged IP67 Waterproof Panel PCs (FOX Series)

- Intel® Atom™ Series
- IP67 waterproof/dustproof design
- Aluminum die cast enclosure
- Anti-fog and sunlight readable
- Brightness adjustment

### Ultra Slim Multi-Touch Panel PC (ACP-1000 Series)

- Intel® Atom™ series
- Ultra Slim, Fanless Panel PC
- Projected capacitive touch screen
- Anti-scratch front display: Hardness 7H
- IP65 compliant front bezel design

For the Industrial Automation market, AAEON provides the durable AHP-1000/2000, AGP-3000, AFP-6000, FOX-100 and AGD-300D Series. For the Infotainment market, AAEON offers the high impact and user friendly ACP-5000, ACD-500D, ACD-500R Series.

## Industrial Automation Touch Display

### Rugged Industrial Touch Displays (AGD-300D Series)

- Wide temperature design: -20°C ~ 60°C
- Front menu buttons
- Wide range power input: 9V ~ 30V DC
- Flexible RS-232/USB interface for T/S

### Rugged Industrial Touch Remote Displays (AGD-300R Series)

- Wide temperature design: -20°C ~ 60°C
- Wide range power input: 9V ~ 30V DC
- Extend video/audio by ethernet TCP/IP
- Provide one to one, one to multiple, cascade, digital wall structure

### IP67 Waterproof Displays (FOX-100D Series)

- IP67 waterproof/dustproof design
- Brightness adjustment
- Aluminum die cast enclosure
- Anti-fog and Sunlight Readable

## Infotainment Multi-touch Panel PCs & Displays

### Infotainment Multi-touch Panel PCs (ACP-5000 Series)

- Projected capacitive multi-touch
- IP65/IPX1 waterproof design
- Multiple expansion: MSR/barcode
- Anti-scratch front display: 7H

### Infotainment Multi-touch Displays (ACD-500D Series)

- IP65/IPX1 waterproof design
- Projected Capacitive Touch Screen
- Anti-scratch front display: 7H
- Flexible DVI/VGA input

### Infotainment Multi-touch Remote Displays (ACD-500R Series)

- Extend video/audio by ethernet TCP/IP
- Show same video without lag
- Provide one to one, one to multiple, cascade, digital wall structure
- Remote display and remote management
- One host PC to Multi-client displays via TCP/IP

# Cost Effective HMI Panel PCs

AAEON's AHP-1000 Series is fanless design and powered by low power consumption and high performance Intel® Atom™ processors. The AHP-1000 Series is designed with IP65 rated waterproof and dustproof plastic front bezels and come in 7", 8.4", 12.1" and 15" sizes. These cost-effective Panel PCs are well-suited for factory floors, manufacturing lines, monitoring and control rooms and building automation. All AHP-1000 Series are powered by Invensys InTouch CE and ACP thin client.

## Alliance with Invensys InTouch SCADA & ACP Thin Client Software

The AHP-1000 Series is designed to be slim and compact to conveniently fit into applications with space constraints and are available in 7", 8.4", 12.1" and 15" sizes. The AHP-1000 Series is also in alliance with Invensys for SCADA software and with ACP for client software.

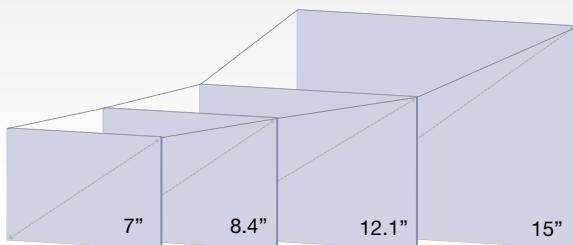

## Cost-effective & High Performance

For customers with cost constraints, the AHP-1000 Series is the best option for an industrial grade, waterproof touch Panel PC that does not compromise performance for cost. The AHP-1000 Series offers multiple expansion features including mini cards for 3G/WiFi/GSM/GPS and is easy on the budget.

## Complete Product Line

- The AHP-1000 Series comes in 7", 8.4", 12.1" and 15" sizes

## Cost Effective

- Cost-effective and high performance, powered by Intel® Atom™ processors

# AHP-1000 Series

## Applications Include:

Factory Automation  
Building Automation  
Central Control Rooms

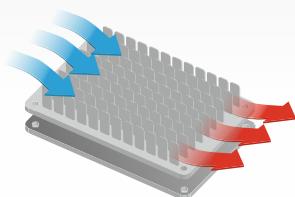

### IP65 Compliant

- IP65 compliant plastic front bezel

### Fanless Cooling System

- Reliable fanless design

### Mini Card Expansion

- Mini Card for 3G/WiFi/GSM/GPS

# Rugged and Wide Temperature Panel PCs

AAEON's AHP-2000 Series is designed for harsh environments such as military, metal refineries, processing plants, oil refineries, wastewater treatment where heavy duty industrial monitoring and control is required. Designed to operate in harsh environments, the AHP-2000 Series highlights up to 1000 nits high luminance panels, IP65 rated waterproof and dustproof front bezel, wide operating temperature range from -20°C to 60°C (-4°F to 140°F) and power input protection such as over-voltage, low-voltage and reverse-input protection for enhanced safety operations.

## Designed For Harsh Environments

Ruggedly designed for harsh environments, the AHP-2000 Series uses IP65 rated aluminum die cast front bezels and provides wide operating temperature range from -20°C to 60°C (-4°F to 140°F). The AHP-2000 Series meet critical vibration, shock and drop standards for reliable operation under most indoor or outdoor heavy duty operating conditions.

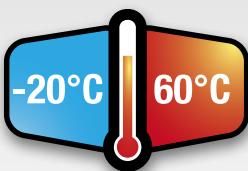

## Power Input Protection

The AHP-2000 Series is built with power input protection for over-voltage, low-voltage and reverse-input, making it safer and more reliable for operators to use in various applications.

### Wide Temperature

- Extreme operating temperature -20°C ~ 60°C (-4°F ~ 140°F)

### Power Protection

- Over-voltage protection
- Low-voltage protection
- Reverse-input protection
- Surge protection: 1000V DC

### Rich I/O Port Support

- Front USB x 2, USB x 4 on rear
- LAN x 2
- RS-232 and RS-232/422/485 with auto-flow control
- Front OSD

# AHP-2000 Series

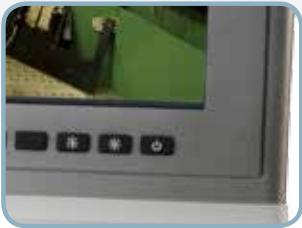

## *Applications Include:*

Heavy Industry Factory Automation  
Production Line Automation  
Environment Monitoring  
Military

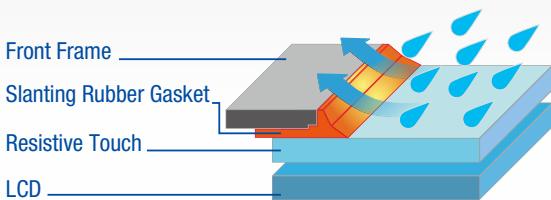

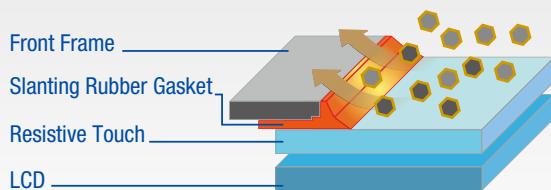

## Rugged Design

- Aluminum die cast front bezel and heavy duty rear metal chassis

## Dustproof and Waterproof

- Dustproof and waterproof on LCD edge

# Ultra Slim Multi-Touch Panel PCs

The ACP-1000 Series are industrial grade ultra slim Multi-touch Panel PC for automation and information applications use. Slim size with 32mm (1.26") thickness and provides wall mount, VESA mount and stand kit, makes ACP-1000 Series easily installed in any space constrained location. The IP65 aluminum front bezel design and superior thermal solution can fulfill all customer's application needs.

## Ultra-Slim Mechanism Design

Ultra-slim design with 32mm and elegant Mechanism Out-looking design allows user to easily install everywhere in infotainment or automation applications.

## IP65 Full-Flat Surface Design

The ACP-1000 Series offers waterproof and dustproof designs with a IP65 anti-scratch touch screen (hardness 7H) front to avoid damage incurred by water, solid particle ingress or rough usage.

## IP65 Full Flat Surface

- IP65 protection against water jet spray

Front

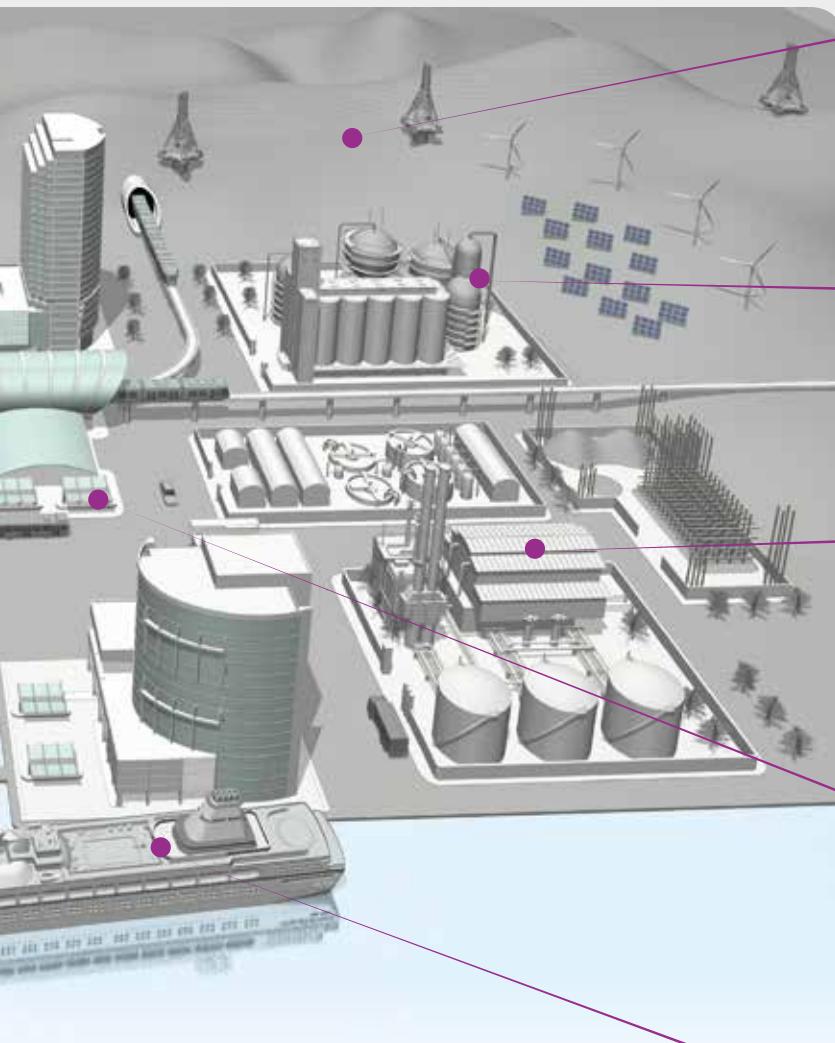

## Projective Capacitive Multi-Touch

- Supports 2-point multi-touch for easy operation
- Supports Zoom-in/out

For the past 20 years, AAEON products remain highly esteemed for their system reliability and outstanding performance. Flexible customization services are also available to guarantee quick time-to-market for OEM/ODM customers who require product differentiation and branding.

## Industrial Automation

Heavy-duty Machine

Energy and Utility

Factory Automation

Bus Systems

Harbor, Shipping, Warehouse

# ACP-1000 Series

ACP-1000 Series

## *Applications Include:*

Home Automation  
Equipment Automation  
Retail

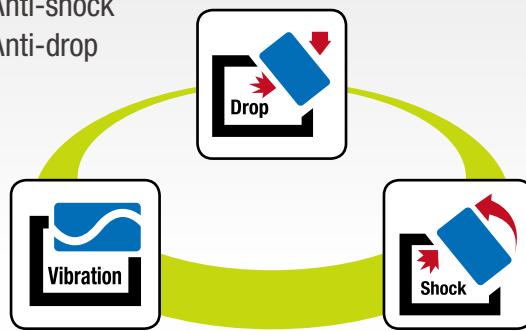

## Easy For Installation Everywhere

- Supports VESA 100/ Wallmount/ Desktop Mount

## Safety Mechanism Design

- All enclosure aluminum design
- Anti-vibration
- Anti-shock
- Anti-drop

# Infotainment Multi-Touch Panel PCs

AAEON's ACP-5000 Series Panel PC is ideal for public infotainment and digital signage applications. It is powered by a multi-touch projected capacitive touch screen. To increase durability and reliability, the ACP-5000 Series comes with an IP65 waterproof front with anti-scratch touch screen (hardness 7H) and an IPX1 back cover, which provides protection against spilled water. The front uses a "non-gap" design for easy cleaning and provides a user-friendly 2-point multi-touch screen for easy zoom in/out function. The ACP-500D Series is the display-only version of the ACP-5000 Series offering similar features but without a built-in processor.

## Projective Capacitive Multi-Touch

The ACP-5000 and ACP-500D Series features a two-finger multi-touch projected capacitive touch screen, convenient for zoom in/out function. Depending on the application, users can easily zoom in to check their product quality or enlarge detailed information for ease in reading.

## Projective Capacitive Multi-Touch Display

- Supports 2-point multi-touch for easy operation

## Reliable System Design

The ACP-5000 and ACP-500D Series offers special waterproof and dustproof designs with a tough IP65 anti-scratch touch screen (hardness 7H) front and IPX1 back cover to avoid damage incurred by water, solid particle ingress or rough usage.

## Anti-Scratch

- Resistant to scratches
- Hardness of front surface is 7H

# ACP-5000/ ACP-500D Series

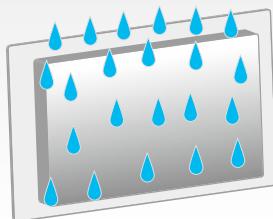

## IP65 Front/ IPX1 Back Cover

- IP65 protection against water jet spray
- IPX1 protection against dripping water

Front

Rear

## Multiple Expansions

- Supports MSR, RFID, Scanner, Smart Card Reader and Skype phone

## Slim and Compact

- Easy installation in limited spaces

Only 56mm

# Rugged Stainless Steel Touch Panel PCs

AAEON's AFP-6000 Series touch panel PC is meticulously designed with an IP66/NEMA 4X rated enclosure made with the highest grade polished Stainless Steel Type 316L, providing an easy to clean and hygiene human machine interface (HMI) for food and beverage industries. Driven by the power efficient Intel® Atom™ processor, the AFP-6000 Series brings you high system performance for automation applications in harsh environments against splatter, high humidity and high corrosion.

## NEMA 4X/IP66

NEMA 4X/IP66 enclosure provides protection from dust and water making it ideal for indoor and outdoor use and for hose down/wash down applications.

## Anti-Scratch Resistive Touch Screen

Factory workers can now operate the panel PC without taking off their gloves! This special anti-scratch glass-film-glass resistive touch screen design with 7H surface hardness protection provides the highest possible resistance against physical impact and abrasion wear.

## Stainless Steel 316L Steel System

Stainless Steel 316L Enclosure offers excellent anticorrosion properties that is resilient to corrosion brought about by salt, acids or alkaline and easy for cleaning and disinfecting in a hygiene environment.

## NEMA 4x/IP66

- Protects against powerful water jets
- Complete sealing through gasket

## Stainless Steel 316L Enclosure

- Offers excellent anti-corrosion properties
- Hygiene and easy to clean

## Anti-Scratch Resistive T/S

- Resistant against sharp objects
- Hardness of front panel is 7H

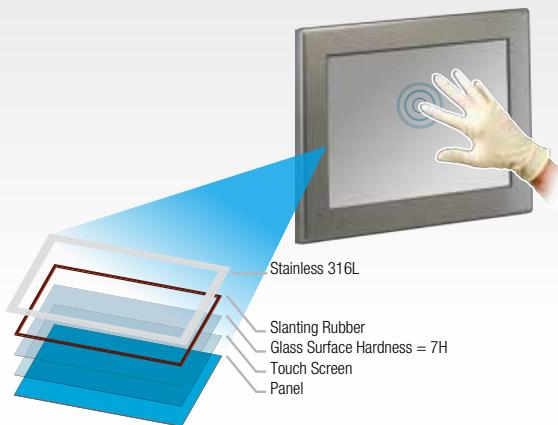

# AFP-6000 Series

AFP-6000 Series

## Glass-Film-Glass (GFG) Resistive Touch Screen

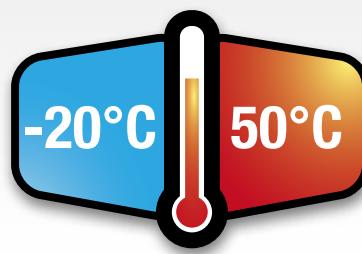

## *Applications Include:*

Food and Beverage Processing Factory  
Production Line

## Wide-Temperature

- Wide-Temperature for harsh environments

# Rugged IP67 Waterproof Panel PCs

AAEON FOX™ Series is designed for extreme rugged environments. Encased in a compact IP67 certified enclosure, the FOX™ Series offers an excellent dustproof and waterproof solution for rugged outdoor military and marine applications. This series features sunlight readable touch screens, a wide view LCD, brightness-control display and integrated wireless LAN and GPS (internal antennas) for real time data exchange and navigation.

## IP67 Waterproof

These IP67 certified panel PCs offer complete 6-way IP67 protection from water and dust ingress. Their fanless and rugged design makes them ideal for use in outdoor and harsh indoor applications and offer built-in touch screen and sunlight readable LCD interfaces.

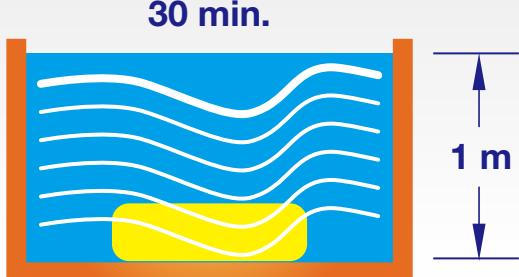

## Brightness Adjustment

AAEON's FOX™ Series features an anti-glare, energy saving LED backlight that can adjust from 0 - 1000 nits, allowing users to operate the system under sunlight or power saving in dark environments.

## IP67 Compliant

- 30 minutes submersion under 1 meter of water

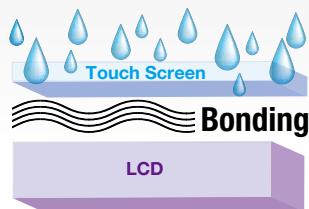

## Sunlight Readable

- Up to 1000 nits
- Can adjust down to 0 nit

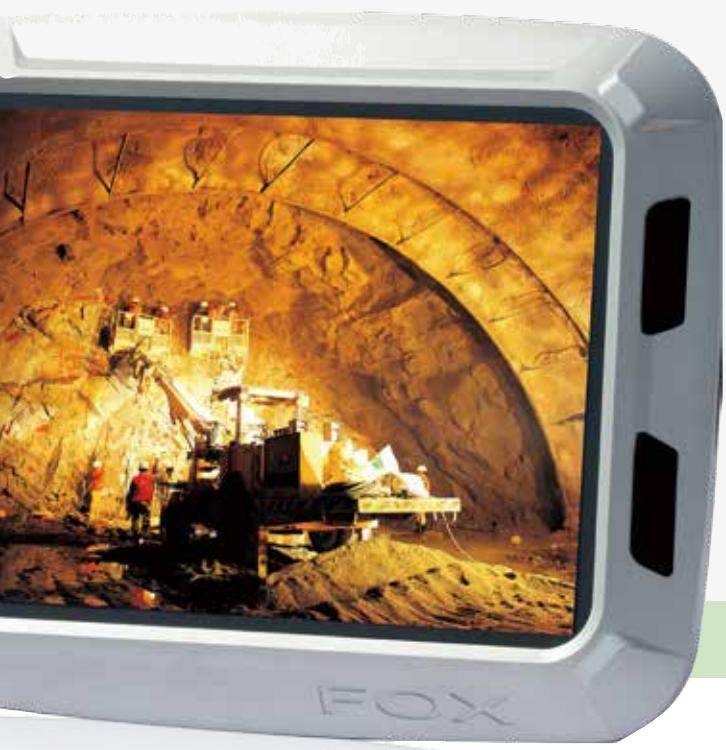

## Anti-Fog

- Anti-fog screens with advanced bonding technology

# FOX™ Series

## Rugged Design

- Aluminum front bezel and chassis
- Anti-shock & anti-drop

## *Applications Include:*

- Heavy-Duty Vehicle
- Outdoor Security Monitoring
- Marine Monitoring
- Military

## Supports 3G and WiFi

- Internally built 3G and WiFi

WiFi

3G

# Rugged Industrial Touch Displays

The AAEON AGD-300D Series is designed for industrial automation display with IP65 certified aluminum die cast front bezel, IPX1 certified back and has a wide operation temperature of -20°C ~ 60°C (-4°F ~ 140°F). The AGD-300D Series features a 5-wire resistive touch screen and provides two front USB ports for easy extensions. The AGD-300D Series can tolerate shock and vibration from factory floors, making it ideal for monitoring and control for factory automation, building automation, utilities and transportation infrastructures, to name a few.

## Aluminum Die Casting

AGD-300D Series adopts industrial-grade material front bezel which incorporates the advantages of high degree hardness, better heat dissipation, easy-to-shape with Arc-shape angle and anti-corrosion ability.

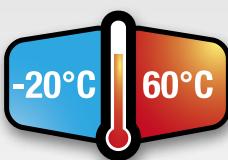

## Power Input Protection

The AGD-300D Series is built with power input protection for over-voltage, low-voltage, reverse-input and power surge, making it safer and more reliable for operators to use in various applications.

## Wide Temperature

- -20°C ~ 60°C (-4°F ~ 140°F) wide operating temperature range for harsh environments

## Power Input Protection

- Over-voltage protection
- Low-voltage protection
- Reverse protection
- Surge protection with 1000V DC

## Industrial Proven Design

- Aluminum die cast front bezel
- IPX1 certified back chassis

# AGD-300D Series

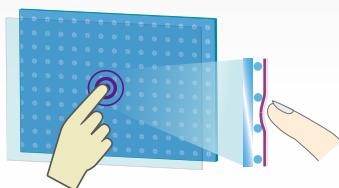

## Front Menu Buttons

- Convenient for user settings

## 5-wire Resistive Touch

- Delivers higher accuracy

## *Applications Include:*

- Central Control Rooms
- Factory Automation
- Machine Automation

## Flexible

- Provides RS-232/Mini-USB for user to upgrade display to touch display

RS-232

Mini-USB

# Industrial/Infotainment Remote Touch Displays

AAEON provides Industrial and Infotainment remote touch displays via the network. The ACD-500R Series is designed for infotainment remote displays used for Digital Signage, Information Displays, Home Automation, POS and KIOSK applications. AAEON's AGD-300R Series is designed for heavy-duty remote displays such as Marine, In-vehicle and Mining applications.

Remote display allows users to install the display anywhere and connect to the host PC via local area network. Each host PC can support multiple displays and important data can be accessed in remote sites. The remote display function provides customers with remote display and remote management to meet customer needs effectively and reliably.

## Remote Display Function

Remote display function allows users to extend video/audio signal anywhere by Ethernet TCP/IP. It also supports one to one, one to multiple, digital wall, cascade structure network types.

## Ethernet

**Max. 100m**

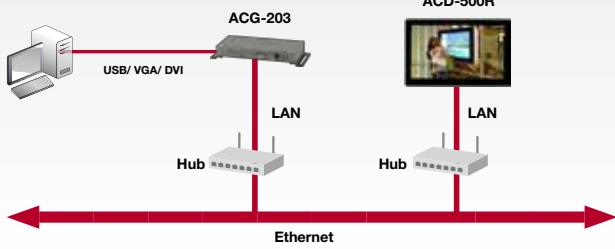

## Rugged Design

Designed with rugged anti-scratch, IP65 certified panels for protection against solid particle and water ingress. AAEON's remote touch displays are also designed for wide operating temperatures for harsh operating environments.

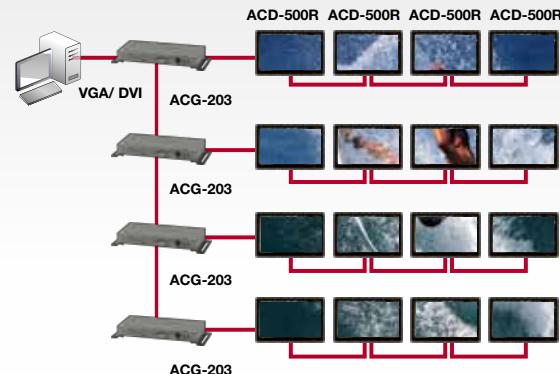

## One-to-One

- One host PC can support up to multiple displays

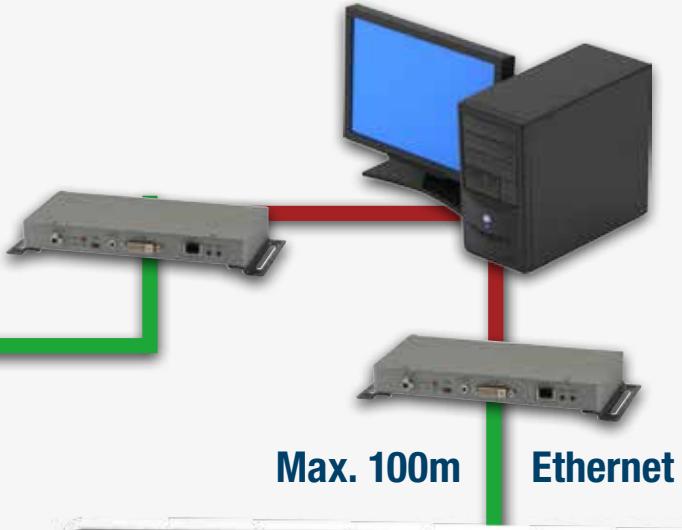

## Digital Wall

- Allows host access and control from any machine on the same network

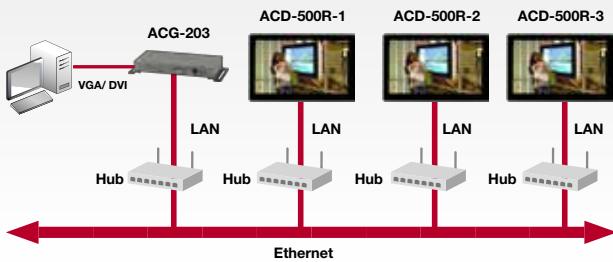

# ACD-500R/AGD-300R Series

## One-to-Multiple

- One host PC can support multiple displays via Ethernet

## ACD-500R Series Applications Include:

Shopping Mall  
Retail Store  
Meeting Room

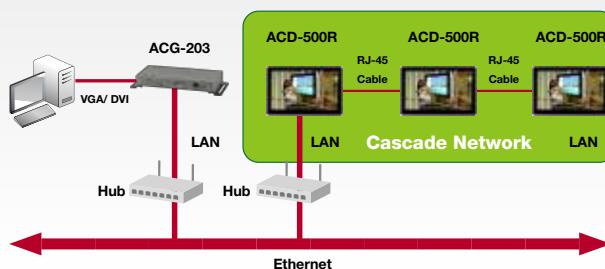

## ACD-300R Series Applications Include:

Production Line  
In-Vehicle  
Marine  
Mining

## Cascade Structure

- Waterproof and dustproof front panel
