Packing List

The LCD monitor should be packaged with the following items. Please check that all of them are included and in good condition.

- 1 ACD-110D
- 1 Utility CD-ROM
Contains User's Manual (in PDF format), Drivers and Utilities
- 1 VGA Cable
- 1 Touchscreen Mini USB Cable
- 1 AC/DC 12V Power Adapter with Lock

If any of these items are missing or damaged, please contact your distributor or sales representative immediately.

Safety & Warranty

Please read the following safety instructions carefully. It is advised that you keep this manual for future references

1. Disconnect this device from any AC supply before cleaning.
2. While cleaning, use a damp cloth instead of liquid or spray detergents.
3. For any pluggable equipment, the power outlet must be installed near the device and easily accessible.
4. Keep this device away from humidity.
5. Place this device on a solid surface during installation. Dropping it or letting it fall could cause damage.
6. The openings on the device's enclosure are for dissipating heat. **DO NOT COVER THE OPENINGS.**
7. Make sure the voltage of the power source is correct before connecting the device to the power outlet.
8. Position the power cord so that people cannot step on it. Do not place anything over the power cord.
9. All cautions and warnings on the device should be noted.
10. If the device is not to be used for a long time, disconnect it from the power supply to avoid damage by transient over-voltage.
11. Never pour any liquid into the openings. This could cause fire or electric shock.
12. **If any of the following situations arises, please the contact our service personnel:**

- i. **Damaged power cord or plug**
 - ii. **Liquid intrusion to the device**
 - iii. **Exposure to moisture**
 - iv. **Device is not working as expected or in a manner as described in this manual**
 - v. **The device is dropped or damaged**
 - vi. **Any obvious signs of damage displayed on the device**
- 13. DO NOT LEAVE THIS DEVICE IN AN UNCONTROLLED ENVIRONMENT WHERE THE STORAGE TEMPERATURE IS BELOW -10° C (14°F) OR ABOVE 60° C (140° F) TO PREVENT DAMAGE.**
14. As most electronic components are sensitive to static electrical charge, be sure to ground yourself to prevent static charge when installing the internal components. Use a grounding wrist strap and contain all electronic components in any static-shielded devices.

FCC

Warning!

This device complies with Part 15 FCC Rules.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received including interference that may cause undesired operation.

Caution:

It may cause the danger of explosion if battery is incorrectly replaced. Replace only with same or equivalent type recommended by the manufacturer.

**General
Information**

1.1 Introduction

Thank you for purchasing the ACD-110D Industry Display Panel TFT LCD monitor.

The LCD monitor has been designed to provide the best performance for many applications. Its compact and slim profile is well suited in working locations where space is at a premium.

Complying with the power management regulations of VESA DPMS, the LCD monitor is extremely energy efficient and power saving while displaying sharper, more brilliant, crisper and flicker-free images. Other features include low radiation and near zero electromagnetic fields emissions.

Fully compatible with a PC, the LCD monitor supports DDC1/DDC2B-compliant “Plug & Play” specification, making installation a breeze.

The On-screen Display menu provides user a user-friendly interface to make right adjustment for most optimal display.

1.2 Features

- 10.1" WXGA (1280 x 800) TFT LCD Display
- IP65 Aluminum Front Bezel
- P-CAP Multi-Touch Screen
- VESA 75, Panel Mount and Stand Support

1.3 General Specification

- **Type** Color TFT, LED backlight
- **Size** 10.1" TFT LCD
- **Construction** IP65 aluminum front bezel and SGCC chassis
- **Mounting** VESA 75/ Panel Mount/ Stand
- **Input signal** VGA, DVI-D
- **Control** OSD (On Screen Display) on the panel
- **Power Supply** External power adapter
- **Dimension** 10.47" (W) x 7.22"(H) x 1.57"(D)
(265.9mm x 183.4mm x 40mm)
- **Gross Weight** 4.4 lb (2.6 Kg)
- **Net Weight** 2.64 lb (1.4 Kg)
- **Power Input** 12V DC
- **Brightness** 300 cd/m²
- **Contrast Ratio** 600:1
- **Viewing Angle** 170°(H)/ 170°(V)
- **Resolution** 1280 x 800
- **Color** 262k colors

Touchscreen

- **Type** Projected Capacitive multi-touch
- **Resolution** 2048 x 2048
- **Light** >88%

Transmission

- **Controller** USB interface

Environmental

- **Operating temperature** 32°F~ 113°F (0°C to 45°C) without airflow
32°F~ 122°F (0°C to 50°C) with airflow
- **Storage Temperature** 14°F~ 140°F (-10°C to 60°C)

- **Storage Humidity** 5~90% @ 40°C, non-condensing

- **Vibration** 1g rms/5-500Hz/random operation
- **Shock** 15 G peak acceleration (11 msec. duration)
- **EMC** CE/FCC Class A

**Hardware
Installation**

2.1 Before Unpacking

It is very important to place the LCD Display in a suitable environment.

- The surface for placing the LCD Display should be stable and leveled.
- Make sure the place has a good airflow and out of direct sunlight; away from excessive dust, dirt, heat, water, moisture or vibrations.

2.2 Connecting to Power Supply

To power the LCD Display, connect the provided AC-DC adapter and power cord to the power input socket of the monitor. Tighten the connector to secure the connection.

2.3 Connecting to the Computer

Turn off the computer and the LCD Display before connecting.

- Use the Monitor-to-PC VGA \ DVI-D cable to connect the LCD Display to your computer. The connectors are the same at both ends.
- Tighten the screws on the connector to secure the connection.

2.4 VGA Port Connector

2.7 VESA Wall Mount

Mounting the LCD Display with UL Listed wall mount Brackets only. The LCD Display can be mounted on a monitor arm or wall mount plate.

Caution:

When mounting the LCD Display, make sure to tighten the retention screws or bolts accordingly till they are fully secured. Overtightening may cause them to become stripped, rendering them useless.

Monitor Arm or Wall mount Plate Installation

The LCD Display has Video Electronics Standards Association (VESA) standard mounting holes tapped into the rear panel. The holes are M4-sized and are set 75mm x 75mm apart.

VESA Mounting Holes

To mount the LCD Display onto a monitor arm or wall mount plate, please follow the steps below.

Step 1: Line up the threaded holes on the monitor rear panel with the screw holes on the monitor arm or wall mount plate.

Step 2: Secure the monitor to the arm or stand with the retention screws supplied with the monitor arm or stand.

2.8 Mounting the Display

Step 1: Get the wallmount bracket and sponge ready.

Step 2: Remove the six screws (three on each side) at the back and place the wallmount brackets onto the display. Secure the brackets with the original six screws.

Step 3: Place the sponge onto the brackets

Step 4: Insert the display to the surface (opening) where you are going to mount the display

Step 5: Attach the mounting clips to the four fillisters on the wallmount brackets and tighten the four M4x60 screws to secure the brackets

Touchscreen Driver Installation

4.1 Introduction

The ACD-110D Series touch screen uses Projected Capacitive Multi-Touch technology to provide more accurate sensing capacity than other technologies. The touch screen is specially designed for any infotainment application and has been approved for FCC Class A standards.

4.2 Installation

Insert the CD-ROM into your disk drive to install the necessary drivers.

Step 1- Install Touch Panel Driver

1. Open the **STEP6-TOUCH** folder followed by the **XP** folder
2. Open **ModifyDBArea.exe**

The system will help you install the driver automatically

Note 1: Drivers are not required for Windows® 7 and Linux Ubuntu 14.04

Note 2: Only single touch is supported for Windows® XP
