## Packing List

Before setting up your product, please make sure the following items have been shipped:
Item
Quantity

- MINI-AI-720 M. 2 Module1
- M2 screw 2

If any of these items are missing or damaged, please contact your distributor or sales representative immediately.

## About this Document

This User's Manual contains all the essential information, such as detailed descriptions and explanations on the product's hardware and software features (if any), its specifications, dimensions, jumper/connector settings/definitions, and driver installation instructions (if any), to facilitate users in setting up their product.

Users may refer to the product page on AAEON.com for the latest version of this document.

## Safety Precautions

Please read the following safety instructions carefully. It is advised that you keep this manual for future references

1. All cautions and warnings on the device should be noted.
2. Make sure the power source matches the power rating of the device.
3. Position the power cord so that people cannot step on it. Do not place anything over the power cord.
4. Always completely disconnect the power before working on the system's hardware.
5. No connections should be made when the system is powered as a sudden rush of power may damage sensitive electronic components.
6. If the device is not to be used for a long time, disconnect it from the power supply to avoid damage by transient over-voltage.
7. Always disconnect this device from any power supply before cleaning.
8. While cleaning, use a damp cloth instead of liquid or spray detergents.
9. Make sure the device is installed near a power outlet and is easily accessible.
10. Keep this device away from humidity.
11. Place the device on a solid surface during installation to prevent falls.
12. Do not cover the openings on the device to ensure optimal heat dissipation.
13. Watch out for high temperatures when the system is running.
14. Do not touch the heat sink or heat spreader when the system is running
15. Never pour any liquid into the openings. This could cause fire or electric shock.
16. As most electronic components are sensitive to static electrical charge, be sure to ground yourself to prevent static charge when installing the internal components. Use a grounding wrist strap and contain all electronic components in any static-shielded containers.
17. If any of the following situations arises, please the contact our service personnel:
i. Damaged power cord or plug
ii. Liquid intrusion to the device
iii. Exposure to moisture
iv. Device is not working as expected or in a manner as described in this manual
v. The device is dropped or damaged
vi. Any obvious signs of damage displayed on the device
18. Do not leave this device in an uncontrolled environment with temperatures beyond the device's permitted storage temperatures (see chapter 1) to prevent damage.
19. Do NOT disassemble the motherboard so as not to damage the system or void your warranty.
20. If the thermal pad had been damaged, please contact AAEON's salesperson to purchase a new one. Do NOT use those of other brands.
21. The Hex Cylinder Coppers on the front panel are not removable.
22. Repeatedly assemble and disassemble the system may cause damages to the exterior paint and surface and screw holes.
23. Use the right size screwdriver.
24. Use the screwdriver correctly to remove screws from the system.

## Warning! <br> 

This device complies with Part 15 FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received including interference that may cause undesired operation.

## Caution:

There is a danger of explosion if the battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Dispose of used batteries according to the manufacturer's instructions and your local government's recycling or disposal directives.

## Attention:

Il y a un risque d'explosion si la batterie est remplacée de façon incorrecte. Ne la remplacer qu'avec le même modèle ou équivalent recommandé par le constructeur. Recycler les batteries usées en accord avec les instructions du fabricant et les directives gouvernementales de recyclage.

China RoHS Requirements（CN）

产品中有毒有害物质或元素名称及含量
AAEON Embedded Box PC／Industrial System

| 部件名称 | 有毒有害物质或元素 |  |  |  |  |  |

## Chapter 1

Product Specifications
1.1 Specifications

| System |  |
| :---: | :---: |
| IC | Kneron KL720 |
| Type | ARM CM \& DSP |
| Support Framework | Pytorch, ONNX, TensorFlow 1.6, Tensorflow lite, Keras, Caffe |
| Support Model | Resnet, GoogleNet, YOLO, Tiny YOLO, <br> MobileNet-SSD, DenseNet, RNN, LSTM |
| Memory Type | 128MB LPDDR3 |
| NPU Power Efficiency | 1.4 TOPS |
| Overall Power Consumption | 5W TDP |
| Other Specifications |  |
| Operating Temperature | $32^{\circ} \mathrm{F} \sim 122^{\circ} \mathrm{F}\left(0^{\circ} \mathrm{C} \sim 50^{\circ} \mathrm{C}\right.$ with cooler $\left.5 \mathrm{~m} / \mathrm{s}\right)$ |
| Storage Temperature | $32^{\circ} \mathrm{F} \sim 158^{\circ} \mathrm{F}\left(0^{\circ} \mathrm{C} \sim 70^{\circ} \mathrm{C}\right)$ |
| Operating Humidity | 0\% ~ 90\% relative humidity, non-condensing |
| Certification | CE/FCC Class A |

## Chapter 2

Hardware Information

### 2.1 Dimensions

### 2.4 Block Design

Jumpers allow users to manually customize system configurations to suit their application needs.

The following chart provides a list of each jumper function:

| Label | Function |
| :--- | :--- |
| JP1 | Wake function Connector (Optional) |
| JP2 | Reset function Connector (Optional) |

2.5.1 Wake function Connector (Optional) (JP1)

## Normal Mode

Wake function
2.5.2 Reset function Connector (Optional) (JP2)

Normal Mode

Reset function

### 2.6 List of Connectors

This section details the connectors featured on the module. This is a reference to help with setup and configuration for your application.

| Label | Function |
| :--- | :--- |
| CN1 | Mini-card connector |
| CN2 | KL720-1 UART0 connector (Optional) |
| CN4 | KL720-2 UART0 connector (Optional) |
| CN6 | FAN connector |

### 2.6.1 Mini-card connector (CN1)

| Pin | Pin Name | Signal Type | Signal level |
| :---: | :---: | :---: | :---: |
| 1 | PCIE_WAKE\# | IN | PCle WAKE\# Open Drain with pull up on platform. Active Low. |
| 2 | +3.3VSB/+3.3V | PWR | $+3.3 \mathrm{~V}$ |
| 3 | NC | - | - |
| 4 | GND | GND | - |
| 5 | NC | - | - |
| 6 | +1.5V | PWR | +1.5V |
| 7 | PCIE_CLK_REQ\# | IN | Reference clock request signal |
| 8 | UIM_PWR | PWR | - |
| 9 | GND | GND | - |
| 10 | UIM_DATA | I/O | - |
| 11 | PCIE_REF_CLK- | DIFF | PCle Reference Clock signals (100 MHz) |
| 12 | UIM_CLK | IN | - |
| 13 | PCIE_REF_CLK+ | DIFF | PCle Reference Clock signals (100 $\mathrm{MHz}$ |
| 14 | UIM_RST | IN | - |
| 15 | GND | GND | - |

| Pin | Pin Name | Signal Type | Signal level |
| :---: | :---: | :---: | :---: |
| 16 | UIM_VPP | PWR | - |
| 17 | NC | - | - |
| 18 | GND | GND | - |
